Nutritional Analysis Instructions

Only one recipe/product per form.

Product/Recipe Name - Ensure you include the product and/or recipe name on the order form.

Recipe Ingredients (1st column)

- List each ingredient/component in your recipe or formula regardless of the amount used
- for all meat ingredients, please indicate the exact cut used (e.g. pork shoulder, beef eye of the round, etc.) as well as the fat-to-lean ration (e.g. beef 80/20, pork 50/50)
- Game meats, fowl, seafood and fish selections are available as well
- Spices listed individually in your recipe can be entered into the database if you know the weight measurement for each item. If you purchase a pre-packaged blend from a supplier, contact them for the nutritional values per unit. This information should be readily available. The values reported will then be entered into the database and incorporated into your recipe
- If an ingredient is a sugar-based ingredient, please indicate by adding a * beside it

Amount/Weight (2nd column)

- List the amount of each ingredient/component used in kilograms, grams, pounds, or ounces. Do not use percentages as the database cannot calculate percentages

Pump Solution/Brine

- If your list of ingredients includes a pump solution it is important that you include this on your form. A separate recipe should be made for the solution and then a specific percentage (that you will provide) will be included in the analysis (e.g. 100 kgs of 80/20 pork plus 20% brine)

Serving Size

- The serving size is based on the edible portion of the **food as offered for sale**. It is expressed as a household measure (e.g. piece, slice) and in metric units (grams, kilograms). Please indicate in the spaces provided the household measure and related metric weight that would normally be consumed at one time by the consumer (e.g. 3 slices (125g)).

Ensure that you include your email address and contact number. This is important in the event we need to contact you if there are any questions about the submission. Return the complete forms with payment to the Meat & Poultry Ontario by mail, fax or email. Payment must be sent with the forms to process the submission.

Should you have any questions on Nutrition Labelling, please contact Daphne Nuys-Hall, MPO Technical Director at technical@meatpoultryon.ca or (800) 263-3797 x 222.
