

Food Handler Training Workshop

June. 10-11, 2020

Location To Be Determined

All employees handling food need to have the skills and knowledge to protect the safety and integrity of your products. As a meat plant operating under Ontario Meat Regulation 31/05, you are required to have at least one supervisor in attendance at the plant during production and slaughter who has received formal training in hygienic food handling.

To ensure your company has met this requirement, consider registering for MPO's Food Handler Training Workshop, by far the most convenient way to achieve certification.

Food Safety Is Everyone's Responsibility

This 2-day workshop provides a great interactive learning environment focusing on these key areas:

- Understanding your food safety responsibilities
- How to identify and control food safety hazards
- Why good manufacturing practices are crucial
- Management's responsibilities for food safety

The workshop is delivered in English with the workbook and examination available in 9 languages: French, German, Italian, Polish, Portuguese, Punjabi, Simplified Chinese, Spanish, Traditional Chinese.

The session ends with the writing of the exam. Upon successful completion you will receive a Certificate of Completion issued through the University of Guelph, Ridgetown Campus.

Workshop fee includes workbook, examination fee and lunch.

"Very important workshop"

"We had the opportunity to learn the material, question it and understand it."

"It was very interesting and educational. The trainer was great with a nice amount of humour to keep it interesting."

"The trainer kept it upbeat and was very approachable and easy to talk to"

"The Instructor interjected industry examples that made it real"
